CAREER OBJECTIVE

As a fresh graduate in electronic engineering with a passion for software development. Seeking an entry-level position to kickstart my career in software engineering field where I can work collaboratively with a team of experienced developers to design, develop, test, and deploy software applications that solve real-world problems.

EDUCATION

Bachelor of Electronic Engineering Technology (Computer System) with Honors

Universiti Malaysia Pahang.
September 2018 - August 2022 **CGPA: 3.20**

Diploma Electronic Engineering

Polytechnic Seberang Perai, Pulau Pinang.
June 2014 - April 2018 **CGPA: 3.03**

WORK EXPERIENCE

Jobstreet by Seek | Lead Generation Executive 3/2023 - Present

- To perform internal and external quality checks for newly converted leads verification and compliance
- To verify documents and detect any non-compliance to business requirements and internal guidelines
- Support in handling inbound leads & requests when required by verifying information and documentation for effective sales closure by Account Managers
- Support the daily sales operational and administrative tasks to ensure business continuity and operations are running smoothly
- Be responsible to update key information into the system and keep proper records on daily tasks for compilation of management reporting
- Utilize sales leads database to generate potential leads from online / offline sources to support the business growth
- Need to support on other additional task that is necessary as a business requirement or process enhancement.
